

UBC Family Practice Scholarship Day

Abbotsford-Mission: JACKPOT JUNE

AGENDA

Thursday, June 10, 2021

0900-1115

TIME	PRESENTATION
0900-0910	Opening Remarks <i>Dr. Holden Chow, Site Director & Dr. Jennafer Wilson, Scholar Faculty Lead</i>
0910-0925	Family Medicine During COVID-19 Pandemic: A Community Based Survey <i>Dr. Shabnam Rostamirad</i> An evaluation of Family Physicians in the community, through an online survey, during the COVID-19 pandemic.
0925-0945	Understanding the Impact of the COVID-19 Pandemic on UBC Family Medicine Residents <i>Dr. Sophia Park, Dr. Andrea Wong, & Dr. Jingfei Zhang</i> The COVID-19 pandemic has directly affected healthcare providers and caused significant changes in the delivery of resident education. UBC second-year family medicine residents were surveyed to explore the impact of the pandemic on their clinical duties, readiness to graduate, and wellness.
0945-1000	BREAK: Games & Prize Giveaway
1000-1015	But Mom, It's Better Than Smoking: A Review and Update on Vaping <i>Dr. Monika Wojtera</i> Electronic cigarettes (e-cigarettes) continue to increase in popularity, particularly among adolescents. This review summarizes the current knowledge on e-cigarettes, focusing on the distinctions between vapes containing nicotine, tetrahydrocannabinol/cannabinoids, or flavouring alone.
1015-1035	Evaluation of Physician and Nursing Attitudes to Take-Home Naloxone in the Emergency Department <i>Dr. Tony Zhao & Dr. Senan Fernandes</i> An evaluation of physician and nursing attitudes in the Abbotsford Emergency Department towards take-home naloxone (THN), perceived obstacles facing THN distribution and potential interventions to increase THN distribution.
1035	BREAK: LIVE Entertainment
1050-1105	Estimation of the Impact of COVID 19 on All-Cause Mortality in BC between March and October of 2020 <i>Dr. Ashandeep Sandhu</i> This study's objective is to estimate the burden the COVID-19 pandemic has had on all-cause mortality in British Columbia from March-October of 2020. This study has implications for physicians working during the COVID pandemic and patients alike, as the official number of COVID deaths underestimates the mortality burden of the disease.
1105-1115	Closing Remarks <i>Dr. Holden Chow, Site Director & Dr. Jennafer Wilson, Scholar Faculty Lead</i>
